

Note: To download text or audio file “click here”, a new window will appear containing file, locate and click on download icon (usually a downward facing arrow), follow popup windows to download file to your device.

Note: To listen to and read text and audio together, “click here”

1. Select desired message audio by clicking or tapping on “LISTEN” - it will open in a separate window
2. Click or tap the PLAY button (right-facing triangle)
3. Next, return to the original browser window, or open a new browser window or tab (note: you should still hear the message playing.) Opening a new window or tab is accomplished in slightly different ways, depending on the device or browser, usually:
 - *Click or tap the "+" (new tab) symbol at the top of page, near the address bar (the long rectangle where you type the website address). Or:
 - *Tap the overlapping windows (tabs) symbol at the bottom right of your screen
4. Type madelikechrist.com in the new window that opened when you clicked the "+" or overlapping windows symbol and follow the first step above in locating the desired message, except this time selecting “READ”. The truth paper will open in a secondary window. (All along, your first window will still be playing the message audio in the background. Now you are both hearing and seeing the message at the same time!)
5. If you have any difficulty at all with the steps above or with downloading audio messages or truth papers, please contact us at livingstonesbc@live.com for assistance.

God bless you.
